PROFESSIONAL SUMMARY

Software Engineering student at SZABIST with hands-on experience building scalable backend systems, RESTful APIs, and real-time applications. Proficient in Node.js, Express.js, MongoDB, and PostgreSQL with strong foundations in OOP, Data Structures, and SDLC. Passionate about technology development, eager to learn, and ready to contribute within a collaborative, growth-oriented environment. Seeking a Technology Development Intern opportunity at iTechnologi Group, Karachi to build my career foundation through hands-on industry experience and professional mentorship.

PROJECT

E-Shop REST API Backend System for a Digital Commerce Platform · 2024. [Repository](#)

- Built a RESTful API with JWT-based user authentication and role-based access control across 10+ API endpoints
- Identified and fixed a concurrency bug in inventory updates using MongoDB ACID transactions, eliminating duplicate order entries under simultaneous requests
- Tested all endpoints using Postman and maintained version control following Git best practices on GitHub

Stack: Node.js, Express.js, MongoDB, Mongoose, JWT

Real-Time Multiplayer Chess Game · 2024. [Repository](#)

- Built the full server-side game logic including move validation and turn management
- Synced live board state across 2 concurrent players in under 100ms using Socket.IO rooms
- Architected session management for concurrent real-time users, demonstrating backend readiness for live client-facing applications

Stack: Node.js, Express.js, MongoDB, Socket.IO

Real-Time Group Chat Application · 2024. [Repository](#)

- Built user authentication system with login and session handling
- Stored message history in MongoDB with a schema designed for scalability supporting multiple concurrent users
- Handled real-time message delivery across multiple users using Socket.IO

Stack: Node.js, Express.js, MongoDB, Socket.IO

EDUCATION

Bachelor of Science in Software Engineering

SZABIST University, Karachi | CGPA: 3.2 | 2028 Batch

CERTIFICATION

Back End Development and APIs · [Certificate](#) · freeCodeCamp · 2025

INDUSTRY ENGAGEMENT

SDLC Industry Session Organizer SZABIST University · December 2025

- Proactively reached out to a Development Manager at Astrik Software, planned and executed an industry session on Agile and Waterfall methodologies, generating insights on software development practices for students
- Coordinated end-to-end event delivery for 50+ attendees — stakeholder outreach, logistics, and presentation reporting — mirroring agency-style project management

UN SDGs Workshop Volunteer IDEAL English School · December 2024

- Co-organized a UN SDGs awareness workshop by conducting research on global trends, preparing educational materials, and presenting findings to high school students on behalf of the CS Department
- Conducted a quiz and awarded certificates to top performers

SKILLS

Backend: Node.js, Express.js, REST APIs, Socket.IO, JWT Authentication

Database: MongoDB, Mongoose, PostgreSQL

Languages: JavaScript, Java, HTML/CSS

Concepts: OOP, REST Architecture, Agile, SDLC, Database Design, Concurrency Handling, Error Handling, Middleware, Version Control, Debugging,

Tools: Postman, Git, GitHub, Socket.IO, VS Code, IntelliJ
